

USER MANUAL

a) WEB

i. Homepage

In the homepage you can see the posts shared by people you follow or communities you are subscribed to. You can see the search bar for searching for the profiles and communities in the Purbee platform. In order to navigate through the app you can use the sidebar on the right. You can go to your profile page, home page, log out or create a new community of your own interest.

ii. Create Community Page

For creating your own community you must provide the following:

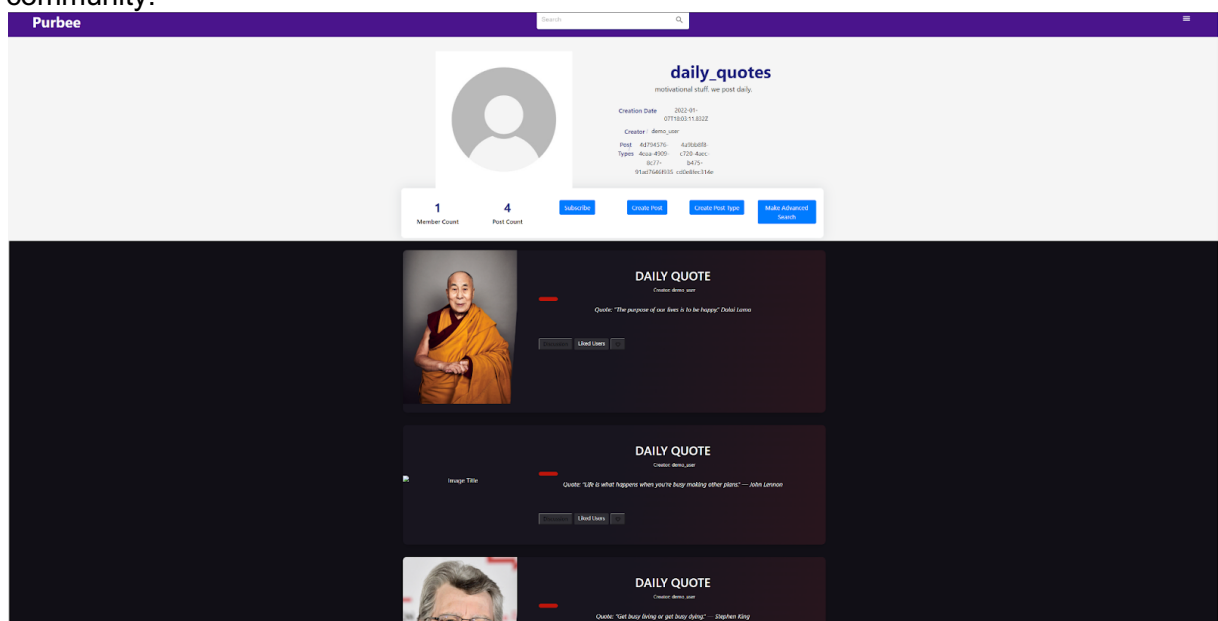

A form for creating a new community on the Purbee platform. On the left is a large grey circular placeholder for a profile picture. To its right are two input fields: 'Community Profile Photo' and 'Photo URL'. Below these is a 'Private' toggle switch. Further down are two larger text input fields labeled 'Community Id' and 'Community Manifest'. At the bottom left is a grey button labeled 'CREATE YOUR COMMUNITY!'. At the bottom right is a small text note: 'You can change other details about your community in community page.'

- Url to the community profile photo.
- Community Id
- Whether your community will be a private one.
- Manifest (Description about your community.)

You can edit other details from the community page after clicking to the “Create Your Community” button.

iii. Community Page

In the community page, you can see the most recent posts shared in that community. You can also make advanced search of the posts according to their post types and fields of the community post types. You can also create a post, or a post type which will be serving as a template for users who would like to share in that community.

iv. Create Post Type

Post Type Name:

Example

Likeable ☒ Comments ☒ Add Field [+](#)

Type: Photo

Type: Location

Type: DateTime

Type: PlainText

[CREATE POST TYPE!](#)

By creating this, you agree to the [Privacy Policy](#) and [Cookie Policy](#)

In order to create a post type you must be authorised as admin. For creating a post type you have to provide a post type name and if that post type will be able to be liked or commented on. Later by providing your selection of the post type fields (PlainText, Photo, DateTime, Document, Price, Location) and their labels you can define your new post type.

v. Create Post

The screenshot shows a web form for creating a post. The form is divided into several sections:

- Post Title:** A text input field with the placeholder text "Example Post Title".
- Post Type:** A dropdown menu with "Example" selected.
- Description:** A large text area for the post description.
- Date and Time:** A date and time picker showing "01/12/2022 05:35 pm".
- Post Location:** A map interface with a search bar and a calendar overlay. The calendar shows "January 2022" with the 12th selected.
- Post Photo:** A section for uploading a photo, including a "Photo Description" and "Photo Url" field.
- LET'S SHARE!:** A blue button to submit the post.

At the bottom, there is a small text line: "By creating this, you agree to the [Privacy Policy](#) and [Cookie Policy](#)."

After creating the post type, you can see how your selection of post fields will show up for post creation. Every user will have to provide values of that post fields you picked in order to share their posts in the community.

vi. Login page:

If you have signed up before, you can enter your credentials and log in to purbee. If credentials are wrong, you receive credentials are incorrect warning.
